NAME: Natsuki Matsuo

Thank you for filling in this form and for giving it back to the reception desk

COMMENTS (Regarding the course, meals, accommodations, transportations, staff service)*I, Natsuki Matsuo, admitted my comments to be published for the use of AITS promotion.

I have been very precious experience for attending this program, ircad Taiwan. As I was a beginner of laparoscopic surgery, I joined in a general course in this program.

Most lectures were helpful to acquire and reconfirm knowledge of laparoscopic surgery. In particular, I learned the experimental laboratory very much.

At first I couldn't even suture naturally and fluently, so I often stuck during the procedure. The expert doctors taught me very patiently and sometimes showed me how to do it individually. Thanks to that, I've been made progress little by little. Other international participants were very enthusiastic and stimulating to me.

~~I'll be back~~ I would like to practice more and more and join again near future.

Finally, I would like to thank the president, all faculty and other staffs.
