

Pre-Program

# WRIST ARTHROSCOPY COURSE

Training on Anatomical Specimen  
Basic Course - Taiwan  
May 15<sup>th</sup> and 16<sup>th</sup> 2010

Organized by GEAP-EWAS  
With the support of :  
FESSH, Honk-Kong Society for Surgery of the Hand, CUHK Depart. of Orthopaedics and Traumatology

Course Director :

C. MATHOULIN (France)  
W.C. CHEN (Taiwan)

Co Course Director :

P.C. HO (Hong-Kong SAR, China)  
T. NAKAMURA (Japon)

Faculty :

W.-L. TSE (Hong-Kong SAR, China)  
J.-T. SHIH (Taiwan)  
Y. ABE (Japan)  
W.J. CHEN (Taiwan)  
A. WAHEKONGAR (India)

J. GOUBAU (Belgium)  
M. LEVADOUX (France)  
P. LIVERNEAUX (France)  
J. MESSINA (Italy)

*This program may be subject to modifications*

# EWAS Wrist Arthroscopy Course

Saturday, May 15<sup>th</sup>

## Morning

08.30	<b>Lecture 1</b>	
	<ul style="list-style-type: none"> <li>· How to perform a wrist arthroscopy : instruments, installation and normal exploration (20 mn)</li> <li>· Radiocarpal joint arthroscopy and Mid-carpal joint arthroscopy (20 min)</li> </ul>	<p>W. Chen</p> <p>W.L Tse</p>
09.15	<b>Practical Session 1 (Part 1)</b> Radiocarpal & mediocarpal joint examination Removal of foreign body, Synovectomy	
09.15	Experts help students directly at their allocated tables on an anatomical specimen with simultaneous teaching Individual practical training by students (1 expert for 2 operating tables)	<i>All Experts</i>
10.45	Break (30 min)	
11.15	<b>Practical Session 1 (Part 2)</b> Mid-carpal joint examination	
12.30	Lunch at the Institute	

## Afternoon

02.00	<b>Lecture 2</b>	
	<p>Robotic assisted surgery of the hand (10 mn)</p> <p>Wrist ganglia (20 mn)</p> <p>Styloïdectomy (15 mn)</p>	<p>P. Liverneux</p> <p>M. Levadoux</p> <p>J. Messina</p>
02.45-04.15	<b>Practical Session 2 (part 1)</b> Removal of synovial cyst Styloïdectomy	
02.45	Experts help students directly at their allocated tables on an anatomical specimen with simultaneous teaching Individual practical training by students (1 expert for 2 operating tables)	<i>All Experts</i>
04.15	Break (20 min)	
04.35-05.30	<b>Practical Session 2 (part 2)</b> Removal of synovial cyst Styloïdectomy	

# GEAP Wrist Arthroscopy Course 2008

Saturday, May 16<sup>th</sup>

## Morning

08.15	<b>Lecture 3</b>	
	Principles of TFCC repair (15 min) Technique of 1B lesion TFCC repair (5 min) Various treatment of Ulnar Impacted Syndrom (15 mn) Distal resection of the ulna (10 min)	T. Nakamura C. Mathoulin PC Ho C. Mathoulin
09.00	<b>Practical Session 3 (Part 1)</b> Principles of TFCC repair Distal resection of the ulna	
09.00	Experts help students directly at their allocated tables on an anatomical specimen with simultaneous teaching Individual practical training by students (1 expert for 2 operating tables)	<i>All Experts</i>
10.30	Break (30 min)	
11.00	<b>Practical Session 3 (Part 2)</b>	
12.30	Lunch at the institute	

## Afternoon

01.45	<b>Lecture 4</b>	
	Distal Radius Fracture (ITS plate)	Y. Abe
02.30	<b>Practical Session 4</b>	
	Distal Radius Fracture (ITS plate)	

### 4.00 End of the seminar

Special thanks to Karl Storz Endoscopie which financial contributions and technical supports enabled us to set up this course.
