

PRELIMINARY PROGRAM

ADVANCED COURSE IN LAPAROSCOPIC UROLOGICAL SURGERY

AUGUST 24TH TO 26TH, 2010
ASIA IRCAD - TAIWAN

CHAIRMAN

MH. Huang

Show Chwan Memorial Hospital
Changhua, Taiwan

PRESIDENT

J. Marescaux

President, IRCAD
University of Strasbourg, France

DIRECTOR

HS. Wu

Show Chwan Memorial Hospital
Changhua, Taiwan

OBJECTIVES

- To present operative techniques by live operative demonstrations from expert centers
- To describe common laparoscopic urological techniques and operative procedures
- To describe outcomes and potential complications of laparoscopic procedures
- Hands-on training sessions to improve technical performance in laparoscopic urological surgery

EDUCATIONAL METHODS

- Interactive theoretical and video sessions between faculty and course participants.

INVITED FACULTY

COURSE DIRECTOR

T. Piechaud (France)

FACULTY

C.C. Abbou, (France)

E. Mandron, (France)

S. Egawa (Japan)

R. Van Velthoven, (Belgium)

Version au 19/10/2009

Tuesday August 24th, 2010

Morning

07.30 am Shuttle-bus from the Hotel to IRCAD Taiwan

08.30 am Welcome to participants - Introduction

Theoretical Session (Live Operative Demonstration according to patient)

09.00 am **Laparoscopic Kidney Surgery:**

Pyeloplasty, pyelotomy

Extraperitoneal radical nephrectomy

Transperitoneal radical nephrectomy

Partial nephrectomy

10.30 am Break

Laparoscopic adrenalectomy:

Transperitoneal approach

Extraperitoneal approach

Laparoscopic aortocava lymphadenectomy

01.00 pm Lunch

Afternoon

EXPERIMENTAL LABORATORY – Practical session on Live Tissue

02.00 pm **Approach of the upper urinary system:**

- Renal pedicle dissection
- Ureterolyse
- Pyeloplasty
- Ureteral repair
- Right nephrectomy
- Left nephrectomy

06.30 pm End of the session - Shuttle-bus

This program may be subject to modifications

Wednesday August 25th, 2010

Morning

08.00 am Shuttle-bus

Theoretical Session – Pelvic Laparoscopic Surgery (Live Operative Demonstration according to patient)

09.00 pm **Laparoscopic treatment of genito-urinary prolapse**

Laparoscopic treatment of vesico-vaginal fistula

Laparoscopic vesical diverticulectomy

11.00 am **Break**

Laparoscopic Radical cystectomy:

Technique of cystectomy

Bicker procedure

The next future in mini-invasive surgery: N.O.T.E.S

01.00 pm **Lunch**

Afternoon

EXPERIMENTAL LABORATORY – Training on Live Tissue

02.00 pm **Approach of the lower urinary system:**

- Ureterolyse
- Burch
- Cystotomy
- Uretero vesical implantation

06.30 pm **End of the session - Shuttle-bus**

Thursday August 26th, 2010

Morning

08.00 am Shuttle-bus

Theoretical session (Live Operative Demonstration according to patient)

Prostatic Surgery

09.00 am **Anatomical reminder**

Laparoscopic radical prostatectomy: transperitoneal approach

Laparoscopic radical prostatectomy: transperitoneal way: primary posterior approach, apical dissection, anastomosis

11.00 am **Break**

Laparoscopic adenomectomy: Millin's technique

Laparoscopic radical prostatectomy, extraperitoneal approach: creation of the space, step by step procedure

Why use the Robotic Assistance for laparoscopic radical prostatectomy

01.00 pm Conclusion of the course

01.05 pm **Lunch**

Afternoon

EXPERIMENTAL LABORATORY – Training on Live Tissue

02.00 pm **Practice of previously performed procedures:**

- Nephrectomy
- Pyeloplasty, ureterolysis
- Burch ...

04.30 pm **End of the session - Shuttle-bus**
